General Login and Navigation

isolved is committed to protecting your data. All users are required to use Two - Factor Authentication (2FA) with every login to isolved. Please note that after 5 failed attempts, the account will be locked similar to a failed password attempt.

Logging in

Navigate to the isolved Adaptive Employee Experience (AEE) website using a web browser of your choice.

The screenshot shows the login interface for 'isolved People Cloud'. At the top is the logo. Below it, the text 'Welcome' is followed by 'Log in to access isolved People Cloud applications'. There are two input fields: 'Username' with the value 'doemanager@protonmail.com' and 'Password' which is empty. To the right of the password field is an 'or' separator and a user icon. Below the password field is a link that says 'Forgot my password'. At the bottom are two buttons: a pink 'Log In' button and a white 'Back' button.

1. Key in your username and password and select **Log In**.

Note: After logging in if you receive an error message stating “You’re not configured to use Adaptive at this time” you will need to contact your administrator to update your access.

The screenshot shows the verification step of the login process. It features the 'isolved People Cloud' logo at the top. Below the logo, it says 'Please verify your account by selecting one of the methods below:'. There are two radio button options: 'Email: doemanager@protonmail.com' and 'Text Message: (###) ###-4508'. The 'Text Message' option is selected. Below these options are two buttons: a pink 'Request Security Code' button and a white 'Cancel' button.

2. Select a verification option, select **Request Security Code**.

3. Enter the code you receive into the **Security Verification Code** field, or you can select **Choose Another Method** to receive the code to the other verification option. Click on the **Submit** icon. On this screen, you can select the “Remember me on this device” (note: this is selected by default on initial login). If this option is checked, then your security verification is valid for 12 hours. If the box is not checked, you’ll be asked to authenticate at any subsequent login, regardless of the amount of time that has passed. Whatever you elect to do with checking or unchecking the box will stay as the default until either a different selection is made or 30 days has passed with no change, at which time the box will revert to being checked.

4. **Set Up Now** allows you to setup your passwordless option. You can make changes to this at any time when logged into isolved & you select the drop down under your name, select **My Account**. Once this is set up, future logins will use what you have added for your options. You may be able to use FaceID, Thumbprint, Passcode, PIN, or other options present on your device:

5. **Maybe Later** allows you to set up the password-less criteria later. This does not allow you to bypass the multifactor authentication process.
6. Select **Don't ask again on this device** if you don't want this message to show up again. This does not allow you to bypass the multifactor authentication process.
7. If the **Maybe Later** option is selected, you're presented the opportunity to set up an authenticator app for subsequent logins. This, too, you can choose to Set Up Now, or you may set it up at a later juncture. Choosing **Set Up Now** leads you through the steps to set up your authenticator app.

8. Going forward, you can log in to your account by either of these methods:
 - a. Entering your password (this option requires entering a code sent to your email or phone).
 - b. Selecting the icon for passkey when you log in to isolved which allows you to use the passkey you enabled for that device.

Commonly Asked Questions

What if I don't remember my password? Use the Forgot Password option.

What are the key features and functionality? We now offer MFA options outside of email and text messaging. MFA requires a user to validate their identity with two or more forms of evidence or factors when they log in. We are enforcing a minimum of two. One factor is something the user knows, such as their username and password combination. Other factors are verification methods that the user has in their possession.

Can a user have passwordless access on multiple devices? Yes, each device will allow and recognize what was set up on that device and use that as a default. Some passwordless options can be used on multiple devices.

What might a user expect this to do that it does not? The user may expect to not do this every login if they are on the same device, a registered IP address, or have logged in within the same day – however, they will still need to do some method of MFA regardless. This could be different than what they are used to today depending on the system settings per client.

Can we opt out of the multi-factor authentication? No

Logging in on a SmartPhone

You may log in to AEE on a mobile device in two different ways:

1. Log into ESS and select the “Try our new look” link.

The screen below appears:

2. Key in the URL of the ESS plus “/cloudservice.com.” This opens AEE where you can select to add it to your Home Page (see above image).
 - a. For example, my normal ESS login is <https://myisolved.com>. For AEE I would use <https://myisolved.com/cloudservice>.
 - b. Select if you'd like to add to the home screen:

After you select the “Add to Home Screen” option, the screen below becomes available:

Click **Add** at the top of the phone screen.

Welcome Page Navigation

Self-Service Punching

Once logged in, you can immediately create a punch by using the pink symbol located at the top-left corner of the page, as seen below. In this menu, a punch can be created using two different methods:

Quick Punch

If you select “Quick Punch,” the system immediately brings you to a page to create a punch for the current date and time, without the option to add punch notes or any other punch options. Once the page loads click the pink to create the quick punch. Once the punch is created you will see a punch confirmation on the screen as shown below:

Detailed Punch [?](#)

If you select "Detailed Punch," the system opens a creation screen and displays the current date and time.

Note: The **Date** and **Time** fields are not editable during Self-Service punching. The punch options available in the detailed punch screen are as follows (options on this screen may differ based on your company permissions).

- a. **Type:** Allows you to specify the Punch Type for the entry. The options are "Normal," "Meal," and "Break."
- b. **Mode:** Allows you to specify if the punch is an "IN," "OUT," "AUTO," or "TRANSFER."
 - a. **IN** means you are clocking in and is typically used when you are first in for the day or coming back from a break or meal.
 - b. **OUT** means you are clocking out and is typically used when you are leaving for the day or leaving for your break or meal.
 - c. **AUTO** allows the system to determine the status of the punch.
 - d. **TRANSFER** allows you to move from one labor value to another without having to create multiple punches. When using the transfer option isolved creates two punches; one clocking you out of your current labor and one clocking you into the labor you transferred to.
- c. **Labor:** If the option to enter labor allocations is enabled, select from the allowed labor levels when creating a punch. If no labor is selected, isolved uses your default labor allocation.
- d. **Notes:** If notes are entered, anyone looking at the Time Card is able to view the details.

Pay and Tax › Tax Updates

The **Tax Updates** screen allows you to begin the process of updating your withholdings. Your current Tax Withholdings for **Federal**, **State**, and **Local** (if applicable) appear when you access the screen.

The screenshot shows the 'Tax Withholdings' interface. On the left, the 'Tax Updates Wizard' section includes instructions and a button labeled 'OPEN TAX WIZARD' with an external link icon, which is highlighted with a pink rectangle. On the right, the 'Federal' section shows a dropdown menu, a checked checkbox for 'Multiple jobs or spouse works', and a 'Filing status' dropdown set to 'Married Filing Jointly or Qualifying Widow(er)'. Below this, the 'State' section shows a dropdown menu, and further down, the 'State' is set to 'NJ' and the 'Tax description' is 'NEW JERSEY WH'.

If you need to change your Tax Withholdings and complete a new tax form, click on the **Open Tax Wizard** button on the left-hand side of the screen as outlined above.

Once you select Open Tax Wizard, you are presented with the **Tax Withholdings** screen to start or sign out. To start a new form, click **Start**.

The 'Start →' button is highlighted with a pink rectangle.

You can then choose the jurisdiction by selecting the radio buttons and clicking on **Continue**. If you wish to change your Federal withholding, click on “Help me determine which withholding forms apply to me” and take the **Survey**.

Once the survey is complete, click on the **Start** icon in the **Federal-Summary** screen.

Locality	Name	Title	Status
Federal	W-4	Employee's Withholding Certificate	Not completed

You can click on the **Back** button if you made an error on your survey, or move forward and complete each section in the form by responding to questions on the screen and clicking the **Next** icon. Your progress is saved on the left side, and you can return to any section by using the **Back** button or the side menu.

The next page gives you the following options:

- “There are only two jobs total. The option is accurate or jobs with similar pay, otherwise more taxes than necessary may be withheld.”
- “None of the above.”

Select the desired option and click on **Next**. Depending on your selection, different options may appear. In the example below, “None of the above” was selected since the Forms and Instructions were already used to determine the withholding.

Complete each section by responding to the questions on the screen and clicking on **Next**.

Once complete, you are able to view or print your completed W-4. You must also attest to the accuracy of the W-4 by clicking on:

Federal Reporting Data

There are three options under **Federal Reporting Data**:

- Disability Self-Identification
- EEO Self-Identification
- Veteran Self-Identification

By using the arrow  symbol, you are able to view the information that your employer currently has recorded for these categories. If you wish to add or change any of the categories, click on the arrow.

Disability Self-Identification

If available, your “Current disability status” is displayed. You are also given the reason why you are being asked to provide this information.

Disability Self-Identification

Current disability status

Not Disabled

Why are you being asked to complete this form?

We are a federal contractor or subcontractor required by law to provide equal employment opportunity to qualified people with disabilities. We are also required to measure our progress toward having at least 7% of our workforce be individuals with disabilities. To do this, we must ask applicants and employees if they have a disability or have ever had a disability. Because a person may become disabled at any time, we ask all of our employees to update their information at least every five years.

Identifying yourself as an individual with a disability is voluntary, and we hope that you will choose to do so. Your answer will be maintained confidentially and not be seen by selecting officials or anyone else involved in making personnel decisions. Completing the form will not negatively impact you in any way, regardless of whether you have self-identified in the past. For more information about this form or the equal employment obligations of federal contractors under Section 503 of the Rehabilitation Act, visit the U.S. Department of Labor's Office of Federal Contract Compliance Programs (OFCCP) website at www.dol.gov/ofccp.

EEO Self-Identification

Current EEO status

Gender	Male
Ethnic origin	White (Not Hispanic or Latino)

Why are you being asked to complete this form?

Your employer is subject to certain governmental recordkeeping and reporting requirements for the administration of civil rights laws and regulations. To comply with these laws, your employer invites employees to voluntarily identify their race, ethnicity, and gender. Submission of this information is voluntary and refusal to provide it will not subject you to any adverse treatment. The information obtained will be kept confidential within the Human Resources Department and may only be used in accordance with applicable laws, executive orders, and regulations, including those that require the information to be summarized and reported to the federal government for our Affirmative Action Program and civil rights enforcement. When reported, data will not identify any specific individual.

If you choose not to identify your race, ethnicity, or gender at this time, the federal government requires your employer to determine this information by visual observation and/or other available information.

For civil rights monitoring and enforcement purposes only, all race, ethnicity, and gender information will be collected and reported in the categories identified below. The definitions for each category have been established by the federal government. If you choose to voluntarily self-identify, you may mark only one of the boxes in each section presented below.
