## Instructions

---

The factors weighed by the Internal Revenue Service (IRS Factors) in determining worker status for payroll tax withholding purposes are different than the factors weighed by the Department of Labor in determining worker status for Fair Labor Standards Act minimum wage and overtime purposes (FLSA Factors).

To determine a worker's status under the IRS and/or FLSA criteria, answer the following questions by checking "Yes" or "No" as applicable. In general, "Yes" answers support a determination of "employee" status; "No" answers support a determination of "independent contractor" status.

A worker does not have to meet all the criteria to qualify as an employee or independent contractor, and no single factor is decisive in determining a worker's status. The individual circumstances of each case determine the weight assigned to each factor.
